Daily British Colonist.

FRIDAY MORNING, JUNE 27TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

Our Public Buildings.

Among the Federal public buildings to the early erection of which the people looked forward with an interest scarcely understood in the more advanced provinces, the post-office, custom-house penitentiary and marine-hospital may, perhaps, be regarded as the principal ones. Anticipating the action of the Government, we took occasion, more than a year ago, to point out the desirableness of having these public edifices of a character to be an ornament to the town in which they might be located, and a credit to the Government of the Dominion. British Columbia has been aptly designated "The Pacific face" of the Dominion. Adopting the simile, how very desirable it is that the young Empire, the "Greater Britain" of the future, should keep its face clean and respectable. Thousands of persons will see the "Pacific face" who may never have an opportunity of seeing any other part; and we all know how potent for good or evil are first impressions,—how attractive is a handsome face. It will be advantageous, therefore, to the whole Dominion, it will be no more than just to British Columbia, that our Federal buildings should be of a character to favorably impress all who come to our shores. It would be mere affectation to deny that there exists a very general feeling of dissatisfaction on account of the character of the public buildings, so far as it has been developed. The post-office (including, as it does, certain other public offices) is half up. It will be a tolerably good building; but still, in point of architectural beauty and affect, it falls short of the just expectations of the people. The Parliamentary vote for it was, we believe, twenty-three thousand dollars. It should have been more; and yet it is costing a trifle less. The marine hospital, as yet, only exists on paper; and we must confess that, considering the very prominent site selected, it has much less pretensions to architectural beauty than could be wished. Standing as it were the nose on the "Pacific face," it will be the first object to attract attention; and how agreeable and salutary it would be to have the approaching visitor ask, "What beautiful building is that?" and upon being told that it is the marine hospital, remark, "That speaks well for the country." But, as it is, we fear there is great danger of the marine hospital being taken for a nail factory, or something of that sort. We believe the Parliamentary vote was twenty thousand dollars (not twenty-five thousand dollars, as has been stated); and yet it is undertaken for fourteen thousand, six hundred. No little dissatisfaction has arisen out of this cutting down process,—not so much, perhaps, because less money will be expended in the community as because the Province will be left with a class of public buildings scarcely rising above the "shabby genteel." We confess that we share the feeling, anxious, as we have been, that the Federal buildings of this Province would be worthy of the Dominion and its present Government. It may be asked, "But, even taking the vote of twenty thousand for the marine hospital, why is it cut down to fourteen thousand, six hundred?" We believe the intention of the Federal authorities was that eighteen thousand should be expended on the buildings, the remainder going to lay out and ornament the grounds. If, through the intensity of competition, work which ought to cost between seventeen and eighteen thousand is being undertaken for considerably less, of course that is a circumstance very much to be regretted; yet the fault may not lie at the Federal door. There is this, however, to be said: Were these Federal works promptly entered upon without all this tedious drawling and vexing delay, contractors would be less liable to cut prices down to non-remunerative rates; and we feel quite sure that there is no desire on the part of the Federal authorities that the public works of the Pacific Province should be done at a loss. There is the Custom-house, at the foot of Broughton street, and the Penitentiary. Why are not these commenced? It is this hanging-fire, this dilly-dallying that is wearing out public patience. Meanwhile we are rather disposed to think that it lies more with the political representatives of the Province to impress the Federal Government with the unwisdom of pursuing such a dilatory and stingy policy in regard to the public buildings. In the case of the other Provinces, the original Parliamentary appropriations are generally supplemented. In the case of British Columbia they are pared down! Nor will this procrastination insure cheaper labor—if that be a desirable attainment. Hundreds of men have, after months of waiting, either left the country in disgust or they will be absorbed in the railway surveys, and labor will be dearer, instead of cheaper. The Federal works ought to have been completed now, instead of being talked about.

How Now, Sir Oracle?

On the 12th inst. our contemporary published, under a "hip, hip, hurrah!" heading, one of those prodigious "exclusive" telegrams which it made the basis of an appeal for increased public patronage, a few weeks ago. In this particular telegram the following passage occurred: "Orders have been issued to adopt the route of the Canada Pacific Railway between Victoria and Seymour Narrows at once." The remainder of the telegram was a mere rehash of what we had announced ourselves two weeks before. The next day our contemporary had a leading article and an item on the thrilling announcement of the final settlement of the vexed question. The leading article opened thusly: "The special telegram published in these columns yesterday, making known the fact that orders have been issued to adopt at once the route of the Canadian Pacific Railway between Victoria and Seymour Narrows, has been received by every one in this city with feelings of the most unmixed satisfaction." This is how the item read: "A few in our midst could not bring themselves to believe the news published yesterday, concerning the railway, thinking the intelligence was too good to be true. We satisfied curiosity by producing the original message to one or two, and they left on their way rejoicing, convinced in their own minds that their property was a 'little' bit enhanced in value." You see, when shown the original telegram, with "Amor De Cosmos" at the bottom, they knew it was genuine, and that name was a guarantee that it was true,—for did'nt he tell that fellow at Ottawa, in his grandest style, "Si-r-r-r, I love the truth, and I despise a liar"? Jewhillicans! how poor PLANETUS must have shrunk into his very boots! Well, as we have said, these appeared on the 13th. After that the organ pitched into us for daring to point out the utter absurdity of the spurious telegram, and exposing the real object of its concoctor. Later still, referring to the Hon. Mr. Langevin's telegram to Mr. Nelson, distinctly contradicting its own wonderful despatch, our contemporary said, "We adhere to our statement that the question "is" settled." You see, it knew better than the Minister within whose department the subject came! We like to see a fellow stick to his point; but this was rather too much. On Wednesday morning it announced that two parties will immediately proceed to Howe Sound, to survey a line thence to Tete Jaune Cache. What for? If the Bute Inlet route has been finally settled upon, and "orders have been issued to adopt it at once," what means this survey from Howe Sound? Will the oracle explain? This journal has been taunted with experiencing satisfaction that the Bute Inlet route has not been settled on. That's not so. But we do feel disgusted at the railway record of our local contemporary. How do those "one or two" favored ones who got a peep at "the original telegram, and, went on their way rejoicing" like it? Barnum contends that people like being humbugged. Some people do. If the general public had not long since learned to distrust our contemporary as an authority on railway, or for the matter of that, any other affairs, these announcements and counter announcements about the failure of Sir Hugh Allan's scheme and the route of the railway would be cruel and mischievous. As it is, they are about as harmless as they are contemptible. "Sir! I love the truth, and I despise a liar!" What satire!

A PUBLIC MEETING WILL BE held at the Prairie Tavern, South Saanich, on Saturday the 28th inst., at 7 o'clock, p.m.. for the purpose of discussing the utility of the Fourth Portfolio and the Sixth Minister, and the influence of the Canadian Tariff upon the Agricultural Interests of the country. This meeting is the result of a challenge given to Mr Bunster by the Chief Commissioner of Lands and Works. The Electors of Victoria District are particularly invited to be present, as the Chief Commissioner intends to justify the present Ministry in the course they pursued last session in refusing to the Farmers a Modification of the Tariff and burdening the country with a Fourth Portfolio and a Sixth Minister.

Collegiate School.

The prizes awarded at the annual examination of the Collegiate School were distributed yesterday by the Bishop of Columbia in the presence of a numerous assemblage of parents and friends of the pupils. Before their distribution the Bishop addressed the boys, congratulating them on the satisfactory report he had received from the Rev. the Principal, of their conduct and progress during the term just ended; and strongly urging upon them the importance and blessing of a Christian as distinguished from a secular education. He then, with a few kindly and appropriate remarks, handed the prizes to the successful competitors.

Addresses were afterwards delivered by Mr. Langley, Jas. H. Innes, Esq., R. N., the Rev. P. Jenns and the Principal, the latter of whom stated in his report that the number now upon the books was 58, as compared with 40 at Midsummer, 1872; and the average attendance, 54 as against 36. The Schools will reopen on Monday, August 11th.

We append a list of the prize-takers:—

EXAMINATION OF THE PUBLIC SCHOOLS. The midsummer examination of the Public Schools will take place on Monday next. At the last examination day the children were promised that at the Summer vacation prizes would be given, for it was fully expected that the application to the Government for some small amount for that purpose would have been acceded to; but as the application has not received a favorable response the citizens will be called upon to subscribe some small amount to carry out this praiseworthy object. Money spent in buying select books to be given as reward of merit will not only have the effect of stimulating the pupils in the prosecution of their studies, but from the interest naturally taken in such presentations will probably attact a number of the parents of the children to witness the proceedings. It is much to be desired that the parents of the children should be present on these occasions. It is due to the teacher that they should be there. On the occasion of the last examination of some 100 or more boys the attendance of the parents was represented by only two of them. Such indifference on the part of parents who are getting their children gratuitously taught is really too bad; and furnishes poor encouragement for teachers to do their best. The teachers are energetic and zealous in their vocations, and parents by their presence on these examination days should show their appreciation of their effort. We trust that the presentation of prizes will infuse a new life into the examinations, and advance the interests of Public Schools, and we are sure that our citizens whom called upon will cheerfully give their mite in support of the proposition.

CLERICAL VISIT. — By yesterday's trip of the North Pacific a party of eight Catholic clergymen arrived in this city. The party is composed of the following reverend gentlemen: Archbishop Blanchet, of Portland; Bishop Blanchet, Fort Vancouver; Father Macken, Dalles; Father Deeraene, Salem; Father Brondel, Steilacoom; Father Prefontaine, Seattle; Father Goens, Oregon City; Father Thibeau, St. Louis, Oregon. The clerical visitors have come over to consecrate our new Roman Catholic Bishop, Father Seghers. The imposing ceremony will take place at the Cathedral on Sunday morning and will last four hours.

THE SURVEY.—The two surveying parties were organized yesterday by Mr. Marcus Smith and one, under Mr. Gansby, will go to Howe Sound by the Sir James Douglas to morrow. The other party will go up the Fraser to the Quesnel country on Tuesday. Messrs. E. W. Jarvis, J. H. Gray, C. E. Perry and C. F. Hannington, from Manitoba, arrived on the North Pacific in the afternoon to join the survey. We have not heard whether it is the intention to employ any of our local engineers in concluding the exploratory survey.

FOR SAN FRANCISCO.—The steamship Prince Alfred went to sea at 6:10 o'clock last evening. In addition to the passengers mentioned yesterday we observed Prof. Kadderly. Her freight consists of 51 bbls. oil, 23 sks. slags, 10 bxs. salmon, 12 pkgs. minerals and boards, 90 bxs. orange bitters, 11 bales furs, 3 pkgs. Express matter. The shippers are, L. & J. Boscowitz, W. Hitchcock, Sproat & Co., J. K., C. T. Millard, Wells-Fargo.

FROM NANAIMO.—The Sir James Douglas, Capt. Clarke, arrived from Nanaimo and way ports at 7:30 o'clock last evening. She brought some agricultural produce and a number of passengers, among whom were Capt. and Mrs. Spaulding, Mr. and Mrs. Dunsmuir, Mr. Bryden, Mr. and Mrs. Evans, Mrs. Bremner, and Messrs. Kinnear, Evans, Boyd and Fry.

GOOD LUCK. — The Olympia *Courier* states that Capt. Guindon, late of steamer Pollitoffsky, whilst passing through San Francisco a few week ago, invested a few hundred dollars in stocks one afternoon, and awoke the next morning to find himself worth $75,000. The Captain sold out immediately.

Court of Assize.

[BEFORE MR. JUSTICE GRAY.]

THURSDAY, June 26th.

Fisher vs. Holbook. — Messrs. Drake & Jackson appeared for the plaintiff; Mr. Robertson, Q. C., for the defendant.

This was an action to recover the sum of $850, balance alleged to be due plaintiff for services rendered.

The case occupied the Court the whole of yesterday and will be resumed to-day.

STREET ACCIDENTS.—London, England, numbering 3,885,000 souls, loses no fewer than 4,100 in killed, maimed and injured in the course of a year, or at the rate of 10 persons per diem. In 1872 the number of killed was 139, or at the rate of one every other day.—*Daily News.*

WELLS, FARGO & Co. withdraw their Bank here on the 15th prox. Mr. F. Garesche, the present Agent of their Express, will continue to carry on the exchange, gold dust and currency business. The place and system of business will remain unchanged.

CATHOLIC "SENTINEL."—We were gratified yesterday by a call from H. T. Herman, Esq., editor of the *Catholic Sentinel*, of Portland, Oregon. Mr. Herman visits Victoria for the purpose of witnessing the consecration of Bishop-elect Seghers on Sunday next.

LADIES' COLLEGIATE SCHOOL. — The semi-annual examination of the pupils of Angela College, took place yesterday before the Very Rev. Dean Cridge. The reverend gentleman pronounced it one of the most satisfactory educational tests he had ever experienced.

THE steamer Rose, Capt. Francis, from Port Townsend, got in last night at 10:30. She comes for repairs to her boiler. She reports the California having left Port Townsend at 1 o'clock yesterday for the Sound.

TREASURE. — The following amounts were shipped per Prince Alfred: Wells, Fargo & Co., $7,927 05; Bank British Columbia, $7,395 68; Bank British North America, $16,534 86.

THE Pacific terminus of the Northern Pacific Railroad will be announced on July 4th. There is quite a flutter of anticipation visible on Puget Sound in consequence. "Hope deferred," etc.

THE *Oregonian* says that an old man, named Duncan Campbell, who represents himself as a Canadian and is soliciting alms at Portland on the plea of the extreme poverty, is an imposter.

THE steamer North Pacific came in from Puget Sound ports yesterday afternoon at 2 o'clock and sailed again at daylight this morning.

THERE was a vivid flash of lightning and a loud roll of thunder about 6:30 o'clock last evening.

LICENSING COURT.—Judge Pemberton issued a number of country licenses yesterday.

A BELLA COOLA Indian chopped off the head of a Bella Bella Indian at Port Gamble the other day to secure $7.

THE Mr. J. H. Gray, mentioned as having arrived yesterday from Manitoba, is a son of Judge Gray.

SITKA QUARTZ specimens are attracting much attention at Portland.

Travel By Sea.

EDITOR COLONIST.—Being an old resident here and one that has always taken much interest in the prosperity of our town and Province, perhaps it would not be amiss on my part to lay before your readers a few items in reference to the present mail connection between this place and San Francisco, for I feel convinced that were many of the passengers that at present travel on the Prince Alfred aware of the amount of discomfort in store for them, they would far rather go by the Puget Sound and overland route than trust themselves to a lengthy and unpleasant voyage of from five to six days. The accommodation is anything but good. From one end of the steamer to the other there is not really one comfortable seat. The cabin is badly ventilated. The portholes—the only means by which a small supply of fresh air can be obtained—are always closed when there is the slightest sea on. A late trip, which occupied nearly five and a half days, should have been made by a steamer with only ordinary power in from three to four days. The only really rough time experienced was during the first two days; surely the balance of three and ahalf days would be more than sufficient to have brought her here. Just fancy, a distance of seven hundred and fifty miles or at the rate of not over six miles per hour.

One more remark and I will have done: Those who expect to get more than ordinary fare in the cabin will be much deceived, in fact it is not equal to common boarding-house fare. SEASICK.

VICTORIA, 21st June, 1873.

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Washington Territory.

PORT TOWNSEND, June 26.—At 2:30 this morning Rothschild and Co's store was discovered to be enveloped in smoke issuing from every part of the building. Alarm was given and the citizens broke open the store, but the smoke inside was so impenetrable and so intense that for some time it was impossible to locate the fire. Being in the centre of the most valuable block the destruction of an immense amount of property seemed for a time inevitable; but the fire was found in time to quench it without a material injury to the building. The stock is damaged by fire and water to an amount estimated at $15,000 to to $20,000. Insured in the Imperial, Liverpool, London and Globe, and Fireman's Fund. The fire is supposed to have been caused by a cat knocking down some articles from a shelf and igniting matches.

Eastern States.

NEW YORK, June 25.—Eight jurors were obtained in the Woodhull case when the panel was exhausted; fines of $2,000 were imposed against delinquent jurors, and a panel of 300 ordered for to-morrow.

WASHINGTON, June 25.—The wheat yield for 1873 may be safely estimated at 25,000,000 bushels.

The Cheyennes and Kiowas are off their reservation. General Sherman endorses the report as follows: Headquarters Army Washington, June 24. —Resp'y submitted to the Secretary of War. These are the Indians to conciliate whom Santana and Big Tree are to be turned loose. I have no more faith in their sincerity than I should have in prarie wolves, and as I once risked my life to test their sincerity I do not propose to expose myself again to danger and hope the Indian Bureau will manage them without the aid of the army.

NASHVILLE, June 55—There were 25 deaths from cholera to-day of which 15 were white persons.

Specials from Gallatin report disease on the increase there.

WASHINGTON, June 25—It has been ascertained in official quarters that some progress has been made by the British Government in its arrangements for paying the Geneva arbitration awards, part of the funds being already in this country in form of five-twenty bonds to be exchanged for gold on or after 6th of Sept., payment falling due in that month.

Bermuda

A Bermuda letter states that a family named Knowles, consisting of a father, mother and two daughters, were murdered on the 18th June and the house robbed of all its valuables.

Europe

LONDON, June 26—Great Eastern will reach Heart's Content on Saturday.

The Irish papers contain particulars of terrible riot at a fire in Dublin on the night of the 7th June. At about 11 o'clock the fire broke out in Kelly's lumber yard and store in Thomas street — one of the most densely populated parts of the city. Within an hour after the fire commenced from 20,000 to 30,000 persons had assembled in the neighborhood, their object being to plunder the houses. Soon after the arrival of the fire engines, the principal water pipe burst, when the mob tore the hose from the hydrant, which they smashed. Captain Ingraham then had the street torn up and a street engine put in which worked in the waste water from the main. The fire spread and the police were powerless to maintain order. The mob tore open the roof of the house occupied by Mahoney, a wine merchant, and pillaged dozens of cases of their contents. Policemen were stoned and some of them completely disabled. Several priests, who tried to check the disorder, were beaten by the mob and the windows of their chapels smashed. Four companies of infantry with dragoons were called out and at length restored order. Three firemen and several soldiers were seriously wounded. Mob threw bricks and stones from houses upon the soldiers and fought them with bludgeons, Forty-seven rioters were disabled, and many badly wounded.

THE BLIND MEMBER OF PARLIAMENT.—It is a touching sight, in the English House of Commons, to watch the face and movements of its blind member, Henry Fawcett, who, besides being a Professor of Political Economy in the University of Cambridge, a great student of books which he reads through other eyes than his own, a popular orator on advanced social and political topics, is himself a tremendous power in Parliament. In that body some of his speeches are great exploits. For instance, a few months ago, he delivered an elaborate speech, three hours long, on India, giving the most minute data and numerical estimates, all without a blunder, and, of course, all without the aid of written notes. He is becoming every year more influential by reason of his austere radicalism, and his lofty personal tone in statesmanship; and one remarkable thing about him is his hatred of Mr. Gladstone, whom formerly he greatly liked. His own explanation of the origin of this animosity towards his former friend is significant of the severity of his sentiment concerning the heroic obligations of men in high office. "My hostility of Gladstone," said he, "dated from the moment that he gave office to his own son." All who would understand the personal currents swaying English politics in the immediate future must keep in mind Fawcett's attitude towards Gladstone.—*Christian Union.*

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared on his premises on Government street, and sold by all the principal dealers. ***

Dominion Mail Summary.

Thos. Fields, a railway hand at Hamilton, crazed with drink, attempted to kill his wife with an ax. The woman escaped with a frightful gash, which it was feared would prove fatal; and while she was out he cut the throats of his two children, a little boy of 14 months and a girl of four year. The fiend was secured and committed for trial. The affair caused intense excitement in the community.

The Quebec *Chronicle* understands that the Queen has intimated a desire to act as godmother to the infant daughter of Lord and Lady Dufferin, and that the interesting young Canadian lady will bear Her Majesty's own name, Victoria Alexandrina. The baptism will take place in the Cathedral here at an early day.

The following telegram was received by Lady Cartier on the 29th inst:

"From the Queen, Balmoral:

I have heard with great regret of the death of Sir George Cartier. I deeply deplore the loss of a faithful and loyal subject and warmly condole with you in your sad affliction.

To Hon. Lady Cartier,
47 Welbeck street, London."

Hon. Geo. Alexander, of Woodstock, a Postmaster and late a member of the old Province of Canada, is appointed by to-day's *Official Gazette* a Senator, in place of the late Hon. Asa. A. Burnham.

MONTREAL, June 12—Last evening the relatives and friends of the deceased Baronet were present in the Chapelle Ardent at the opening of coffin. The remains were found to be in a state of preservation as perfect as could be expected, though the face is slightly disfigured. On the whole it was not desirable to exhibit the remains to the public, and consequently in deference to the feeling and wishes of the relatives, the coffin was closed, in all probability for the last time. Crowds visited the Court House, and a continual stream of people poured in and out of the door. It is supposed that about 10,000 people have seen the coffin to day, among the number being congregations of nuns, members of the Roman Catholic charitable institutions, students of Jesuit College, inmates of the Roman Catholic Deaf and Dumb School, and other schools, colleges and seminaries of the Roman Catholic Church, all of whom paraded before the remains. A muster of the sixth batallion or Hochelagas was ordered for last night, but only four privates and three officers turned up, and the idea of the regiment taking part in the funeral was abandoned. One hundred men of the Montreal Garrison Artillery were expected to take part in the funeral ceremonies, but at the meeting of the Brigade last night only three officers and six men appeared in uniform, and the prospect of the attendance of this corps at the funeral is very small.

It is expected that 720 immigrants, passengers by the steamers Texas and St. Patrick, will arrive to-night at the Tanneries Junction. A considerable number of them are Scotch. All intend remaining in Canada.

A codicil to the will of Sir George Cartier of 1866 leaves Lady Cartier and family in possession of the estate. It is valued at $12,500.

FORT GARRY, June 11—The first immigrants, with their own teams, of the season arrived yesterday. They are Canadians, who settled in Missouri some years ago. If they report favourably, they will be followed next spring by some hundreds of other Canadian settlers from the same State.

MONTREAL, June 11—It is announced that none of either the Irish Catholic or the Irish Protestant Societies would take any part in Cartier's funeral. The St. George's Society also refused to turn out.

SARNIA, June 10—The Royal Mail steamer Manitoba arrived here last night from Fort Williams with a large number of passengers and sixty tons of silver ore, valued at $120,000.

ST. JOHN, N. B., June 11—Three persons were drowned five miles below this town to-day, while attempting to go aboard the steamer Andover from a small boat.

The Lieut.-Governor of Quebec has met with an accident which will prevent him attending the funeral of Sir George Cartier.

Public Schools in the United States.

There is a strong and growing feeling in the United States against the system of mixed schools, that is, schools where the young of both sexes are educated beneath the one roof or in the same room. Some of our American contemporaries say that much of the vice which is so pervalent owes its existence to this practice. The Boston 'Herald' says:—

"That the devil is in the public schools, raging and rampant there among the pupils as well as among the teachers, no one can well doubt who has sent a litile child into them, as guiltless of unclean thoughts as a newly-fallen snowflake, and had him come home, in a short time, contaminated almost beyond belief."

Professor Agassiz, who has lately given the subject, careful investigation and study says mixed schools have a debasing effect upon the minds of the young, and that much of the crime and vice in the United States arises from that cause. A celebrated physician in his book, 'Satan in Society,' says:—

"The evils and dangers of the present system of educating and bringing up the boys and girls of our country, are too obvious to require minute description. Irreligion and infidelity are progressing 'pari passu' with the advance guards of immorality and crime, and all are fostered, if not engendered, by the materialistic system of school instruction, and the consequent wretched training at home and on the playground."

Of the schoolboy the same writer says:—

"Nourished by languishing glances during the hours past in the schoolroom, fanned by more intimate association on the journey to and from school, fed by stolen interviews and openly arranged festivals, stimulated by the prurient gossip of the newspaper, the flash novels, sentimental weeklies and magazines, the gallant of twelve years is the libertine of fourteen. That this picture is not overdrawn, every experienced physician will bear witness.

"And as for public school-girls, they return from their polishing schools—these demoiselles—cursed with a superable smattering of everything but what thay ought to have learned—physical and moral wrecks, whom we physicians are expected to wind up in the morning for the husband-hunting excitements of the evening. And these creatures are intended for wives only, for it is fast going out of fashion to intend them for mothers—an accident of the kind being regarded as 'foolish'!

"We assert then, that the present system of education, by its faults of omission and commission, is directly responsible, not, it is true, for the bare existence, but for the enormous prevalence of vices and crimes which we deplore; and we call upon the civil authorities to so modify the obnoxious arrangements of our schools, and upon the parents and guardians to so instruct and govern their charges, that the evils may be suppressed."

Danger.

At this season the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciple of the whole medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots and bark can do no harm, while the testimony of thousands invites a trial of its virtues. Vigor is the thing most needed in those cases as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists.

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Lecomte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one o the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation or pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant successin a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectoral Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insommonia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels, This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonine Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentirt on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

THE STANDARD LIFE ASSURANCE COMpany was established in Edinburgh in 1825. The Acts of Parliament, 2 deg. & 3 deg. Gul. IV. cap. 81, and 8 deg. and 9 deg. Vict. cap. 75, also 22 deg. and 23 deg. Vict. cap. 27, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connections of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance.

BONUS ADDITIONS TO POLICIES.

The Company have divided Profits on eight occasions, in 1835, 1840, 1845, 1850, 1855, 1860, 1865, and 1870, when very large additions were made to Policies. The next division of Profits will be made in 1875.

Tables of Rates and all further information can be obtained by application at the office of the Company in Victoria, B.C., or at any of the Agencies at home or abroad.

Testimonials.

We, the undersigned Physicians, practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Lansweert, Practical Chemist, of the Napa Soda Springs of Napa. The water, according to this examination, possesses aperient antacid and tine properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and affording a pleasant, healthful and invigorating beverage.

VICTORIA WATER WORKS.

UNDER AUTHORITY OF THE CORPORAtion of Victoria Water Works Act, 1873, and th Municipal By-Law authorizing the construction of Water Works for the City of Victoria, 1873:

Debentures.

Applications will be received at the office of the undersigned until the 21st day of July for the SECOND ISSUE of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par as follows, viz

$10,000.....On 15th May, 1873;
15,000.....On 1st August, 1873;
75,000.....On 1st April, 1874;

Payable in Twenty-five Years from date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a Ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. The Debentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Coupons will be attached to each Debenture for said Interest, which shall be paid on presentation as they become due.

The Security offered for Repayment of Debentures is as follows:

A preferential Lien will be given on all Works to be erected, also upon the Land and other property acquired for Water Works purposes, and on the Revenue, (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A Deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the Works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no engineering difficulties in carrying out the undertaking.

Forms of Application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner
